

Kerry Wilson
Director of Development
Rugby School

Having worked in schools' development for over 20 years, Kerry has been Director of Development at Rugby School since 2002. The programme of boarding bursaries introduced through the Arnold Foundation for Rugby School in 2003 enabled the school to offer to boarders what had always been available to local day students through the Lawrence Sheriff bequest. With £22.5m raised and 136 students benefiting to date the Arnold Foundation is well established. Kerry's expertise includes both fundraising for bursaries and the delivery of a successful boarding bursary programme; the Arnold Foundation is widely viewed as an example of best practice in boarding bursaries within the UK.

Leading schools' development
