

Kerry Wilson

Director of Development

Rugby School

Having worked in schools' development for over 20 years, Kerry has been Director of Development at Rugby School since 2002. The programme of boarding bursaries introduced through the Arnold Foundation for Rugby School is now 18 years old and the school celebrated this milestone last month with the launch of a new campaign to fund 40 students at any one time. With £25.5m raised and 145 students benefiting to date, the Arnold Foundation is well established. Kerry's expertise includes both fundraising for bursaries and the delivery of a successful boarding bursary programme; the Arnold Foundation is widely viewed as an example of best practice in boarding bursaries within the UK.
