

Debra Price

Head of Philanthropy

RSAcademics

Debra Price became Head of Philanthropy at RSAcademics in January 2016 following 26 years at Benenden School as Development Director and later as Deputy Head. Debra was appointed in 1990 to establish and lead the development function at Benenden and is believed to be the first School Development Director in the UK. Her experiences as both a Development Director and a Deputy Head have given her a unique insight into how to create fundraising functions that enable philanthropic giving to become accepted, and supported, by the whole school community.

Debra has twice chaired the CASE Europe Annual Schools Conference, and addressed professional association conferences both in the UK, and Asia, on a wide range of fundraising topics.
